ESTABLISHED 1857.
500,000 PEOPLE
Throughout the United States & Canadas,
HAVE USED
DR. J. MILLER'S
SOOTHING & HEALING
BALSAM,
And cheerfully recommend it to the public as being the best Family Medicine in the world for all internal and external complaints for which it is recommended. It is fast gaining popular favor, and has already reached extensive sales. All we ask, in order to convince the most skeptical of the powerful efficacy of this great remedy, is the trial of one bottle, costing only 50 cents, and you will never be without it or hesitate to recommend it to your friends. Sold by druggists everywhere. Every bottle used according to directions is warranted to cure, or money refunded.
The proprietors CHALLENGE THE WORLD to produce its superior as a remedy. Testimonials received daily in reference to the astonishing cures it has performed. It is used and recommended by prominent physicians throughout the country.
It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the face or breast, Ear Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.
AS AN INTERNAL MEDICINE, when taken in season, it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaints and Cholera Morbus.
THE "BALSAM" has also given great relief in many cases of Diphtheria.
No person need fear to use this medicine, as it is purely Vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

NEW ADVERTISEMENTS.

THE METHODIST, of New York, has always been edited with marked ability by Rev. Dr. Crooks. Its publishers have just added to its editorial corps, Rev. Abel Stevens, an equally experienced journalist, and author of the best History of Methodism extant. They have also engaged contributions and sermons from the Rev. T. De Witt Talmage, whose success and popularity as a preacher, writer and lecturer, are almost unexampled, and whose free Tabernacle in Brooklyn, with its congregation of over 3,000 people, is one of the marvels of the age. Rev. Henry Ward Beecher has a Lecture Room Talk every week.
THE METHODIST abounds in good things, is never dull or dry, has stories for children, hints for farmers, and something for everybody. Mrs. Willing's great serial story is almost ready. They offer for the price of one year's subscription ($2.50) to send THE METHODIST from now until July 1st, 1872. Specimen copies free. 114 Nassau Street, New York.

NORWOOD, N. J.—Professional Men, Manufacturers, Builders and others desiring business and homes near New York, should examine Norwood, where I sell sites and town lots at lower prices and on easier terms than can be found elsewhere, equally accessible to the city; hotels, churches, schools, stores, &c.; 25 trains daily; Northern R. R. of N. J.; 21 miles from City Hall.
J. WYMAN JONES, 161 Broadway, N. Y.

OF A FAR HIGHER CLASS
than any other proprietory medicine of the day stands
TARRANT'S EFFERVESCENT SELTZER APERIENT,
And for this reason: It is an exact counterpart of one of the most valuable natural medicines in the world. We refer to the great Seltzer Spring of Germany, to which thousands of the dyspeptic, the bilious, the rheumatic, and the victims of various diseases resort annually, and return to their homes, convalescent or cured. The Aperient is one of the first and by far the most successful of all the efforts made to reproduce, in a portable form, the popular mineral waters of Europe. See that you purchase only the genuine article.
SOLD BY ALL DRUGGISTS.

BISHOP SOULE'S LINIMENT,
Invented by the late Bishop Soule, is creating a revolution in the cure of Sciatica, Rheumatism, Neuralgia, Kidney and Spinal Complaints, Sore Throat, Sprains, &c. The cures effected by it are almost beyond belief. Try it, use nothing else, and you will be cured. It is the only sure cure for that *dreadful disease, Sciatica.*
For sale by Druggists, price $1.50 per bottle.

A Remarkable Pocket Book.
Colonel Job Stout, recorder of Hardin county, Iowa, is reported to possess the most remarkable pocket book on record. It was made of pig skin, dressed by one of the Pilgrim fathers, and manufactured into its present shape by himself. It was from the back of the first hog slain by the colonists. A forefather of Colonel Stout carried the pig skin wallet through the French and Indian war, and was shot beside the brave General Wolf, on the bloody Hights of Abraham, in September, 1759. The pocket book, containing some English coin, found its way back to the right family, and held nothing but English coin and bank of England notes until the revolution war. Colonel Stout's grandfather marched with it on his person to Canada with General Montgomery. It was at Stillwater; ferried the Delaware at the memorable Trenton surprise, and when peace was proclaimed contained two thousand dollars of continental currency, most of which its present owner retains. In the late internecine war Colonel Job Stout carried the pig skin wallet through several engagements, and when he fell at Richmond the historical wallet of pilgrim pig skin was perforated with bullets and saturated with blood. The colonel's coat is now on exhibition at Indianapolis, riddled by forty bullets. This wallet has been in use one hundred and ninety years.

NEWPORT DAILY NEWS.

THURSDAY, May 11, 1871.

Morning News.

The riot at Hyde Park, Tuesday, was a most shocking affair. Several men were killed and many others were badly injured. The Irish laborers have passed resolutions declaring that they will have nothing more to do with unions of any kind. They promise to get their names enrolled as laborers and go to work as soon as the company get prepared.

The ship *City of Quebec*, from London to Quebec, was wrecked on Dead Island on the night of the 8th inst. She is a total loss, and all the crew were drowned.

Gen. Sheridan arrived in New York yesterday, from Liverpool.

Gov. Claflin is following the example set him a while since, by Gov Chamberlin, of Maine. He has appointed Julia Ward Howe and Mrs. Stevens, of Cambridge, Justices of the Peace for Suffolk county. The appointments await confirmation by the Executive Council.

Connecticut.

The legislature convened at two o'clock, yesterday afternoon. In the house the committee on the canvass of votes reported that Marshall Jewell was elected governor by 86 majority, and the election of the other republican State officers. A resolution declaring Mr. Jewell elected was then debated. The senate passed upon some unimportant business, and took a recess to await the action of the house. The representatives' hall was crowded with spectators to hear the debate. In the evening the debate was continued by Mr. Eaton in opposition and Mr. Hall of Windham in favor. The resolution was passed at 9:40—123 to 100—a strict party vote. Resolutions declaring the republican candidates for other State officers were also passed, and the house adjourned. The senate will take up the resolutions tomorrow at ten o'clock and pass them after discussion. Governor Jewell and the officers will take the oath in the governor's room as soon as officially notified, and Governor Jewell will communicate a message to the legislature on Tuesday next, and arrangements for public inauguration ceremonies and a parade on that day will be made.

An Interesting Decision.

The courts of Illinois have just given a very curious decision in a case involving a verdict of $1,975 on an insurance policy, issued in favor of Mrs. Mary Mason. The matter is thus summed up by the Chicago papers:

"Mrs. Mason was married in 1857, or 1858, perhaps, and ever since has lived as a wife should with her husband. On the 6th day of November, 1868, she took out the policy of insurance, upon which the suit was brought, for 2000—$1,250 on her stock of millinery, etc. $500 on furniture and fixtures, and $250 on household furniture, etc. On the Eleventh of March, 1869, the property was destroyed by fire. The main question arose under the married woman's act of 1861. Upon this matter, as applied to the particular case, the court (Judge Porter) instructed the jury that, if the plaintiff was married and lived with her husband, then she could not recover, unless she showed that the goods destroyed were actually owned by her. Prior to Feb. 22, 1861, the husband became, by marriage, the owner of the personal property of the wife, acquired by her either before marriage, or after, but since that date the wife can hold personal property, which she had acquired from any person but her husband, and from her earnings; but personal property acquired since that date, and prior to March 24, 1869, as well as that received from the husband, still belongs to him by virtue of their marriage, and where husband and wife live together, presumption is that the personal property the belongs to the husband."

The Disgrace of Labor.

As southern journals complain that the northern press misrepresents the social ideas and practices of that section, the following picture is taken from a reliable southern periodical, the Goodman (Miss) *Central Star*. Its strictures are at least as severe as those ordinarily seen in northern papers:

The stranger visiting the south is particularly impressed with the vast wealth of a country that can support in idleness so large a portion of its male inhabitants. Two thirds of our citizens are only nominally employed, and under a bare pretense of employment manage to pass their time in complete indolence. This will apply to whites as well as colored. There are numbers of both classes out of work and money, and yet who will not work. Offer a negro a dollar to cut a cord of wood, and he has not time, he has something to do for somebody else; yet that something is not done. Offer a job to a white man and the chances are ten to one your answer will be a shot from a pistol or a thrust from a bowie knife. Of the two, the negro is the only one ashamed of his laziness for he excuses himself, but the white man is insulted. Yet neither of them has seen a dollar for a week perhaps, and both are lying round a dram shop if they have a few dimes.

This repulsive picture is endorsed as true by the new Orleans *Home Journal*. It is evident that the South needs social and educational reconstruction fully as much as political.

A Good Place for the Emigrant.

Virginia is urging her claims on the attention of immigrants. The State possesses many advantages, and an abundance of cheap and unoccupied land. This land is not, as many suppose, worn out, but much of it has never been cultivated. Markets are easy of access, and the profits of agriculture, though not large, are reasonably certain. The Valley of the Shenandoah is considered the garden of the State, but there are other portions of it equally as good. The worn out lands are situated in that portion of the State which was earlier settled, and many of the abandoned tracts have lain fallow so long that nature has restored them. Land has not been worked according to Northern and Western ideas of farming, and could, with proper cultivation, be made to yield large returns. Good land is higher than in the West, but the difference in price is compensated for by nearness to market, and many other advantages which an old State has over a new one. If the people of Virginia will be as tolerant of political opinions as they are generous in their offers of land, they will be sure to attract its fair share of immigration.

Greeley wrote a letter to the Iowa Press Association, in which he said: "I have hominy, carrots and R. R. ties more than I could move with eight steers. Heels are blighted, dog them early. Any insinuation that brick overs are dangerous to hams, gives me the horrors. Greeley." That is, they read it so. They have since learned what he meant to say was: "I find so many duties pressing upon me, that with the weight of years I feel obliged to decline nearly every invitation that takes me over a day's journey from home. Yours among them. Horace Greeley."

A duelist in Washington once made three propositions when challenged: the first being to sit on a barrel of gunpowder together; the second, to hold hands and jump from the top of the Capitol; and the third scarcely less impious, to shoot at each other within ten paces with three musket balls! The latter was adopted, and one of the parties fell at the first fire.

The United States of Columbia are making preparations for an exhibition of their natural products in July next. Columbia, says a local paper, has many textile, industrial and oleaginous substances which might be turned to account in a commercial sense. Then her cabinet, building and other woods may be utilized with profit, as may also her resinous substances, wild fruits, vegetable barks and forage plants—the latter especially in countries where drought is frequent and of long continuence.

Abolition of the Grand Jury.

The legislature of Wisconsin, has presented an act for abolition of the grand jury system. The new law takes effect on the 1st. of July. It was argued in favor of the measure that, in the good old days we read about, when the rich enjoyed large facilities for oppressing the poor, it was a matter of no little importance that the man who had occasion, to lodge information of crime against one of the wealthy class enjoyed in the secrecy of the grand jury room an assurance of immunity against the revenge of the accused if the prosecution failed, but that such a consideration is hardly worth entertaining; and, on the other hand, there is little doubt that the secrecy of the grand jury's proceedings, and the fact that there is a practical if not theoretical lack of means for holding witnesses before it responsible for the truthfulness of their testimony, is sometimes taken advantage of by malicious persons to injure their neighbors with impunity.

A despatch from Scranton to the New York *World* says that there will be no more coal shipped eastward this week than has been sent to market since November last, mainly on account of work in the Wilkesbarre district. While a general recommencement of labor has by no means taken place there would seem to be no longer any ground for apprehending a coal famine. The shipments through the Lehigh Valley will probably reach 50,000 tons hereafter per week, and may even go beyond that figure. But the prices will not sensibly decline until operations are generally resumed.

MILITARY.—At the annual meeting of the Burnside Guards, held last evening, the following were elected officers for the ensuing year:

Captain—Collins S. Burrell.
1st Lieut.—James W. Johnson.
2d Lieut.—John P. Easton.

ELECTION.—The city election in Providence yesterday resulted in the success of the republican nominees. Thomas Doyle was elected Mayor, receiving 1902. His opponent B. G. Chace received 833. The new board of Aldermen are in favor of the license system.

FORBIDDEN GROUND.—No stragglers allowed on Goat Island. Everything is under "red tape" management. Even our reporter was this morning, ordered from the forbidden ground. We would advise all our friends to be careful how near they sail their crafts to this island, or they may, like our reporter, run against "shoulder straps."

THE REDWOODS.—We understand that the Redwood band were serenading their friends last evening. They called upon Messrs. Taber & Dugan, who happened to be prepared for just such invasions. They invited them into their houses, where a bountiful repast were spread for their acceptance. The evening was passed in a most enjoyable manner and it was late at night e're they retired to their homes.

RESISTING AN OFFICER.—Yesterday afternoon City Marshal Read attempted to arrest a fellow who was under the influence of liquor and making a general disturbance upon Thames street. During the tussle the Marshal threw the man to the ground but when he came to his feet again he armed himself with a box and threatened to demolish any person who should molest him. The Marshal called assistance and attacked the desperado before he had an opportunity to strike. With some other resistance the man was conveyed to the Station House, and this morning appeared repentant and submissive.

NEW ENGLAND AHEAD!—The facility with which divorces have heretofore been obtained in the State of Indiana, is now at an end. By a recent amendment, the law requires a residence of three years in the State before a divorce can be obtained for any cause, and other stringent provisions have been added to the statutes previously existing. Henceforth Indiana will be obliged to come East and make application in the courts of Rhode Island and Connecticut, where the ratio of divorces to marriages is greater than in any other civilized country.

VELOCIPEDE.—There is now on exhibition at J. J. Stacy's for a few days a great novelty in the shape of a velocipede. All persons wishing to see this wonderful machine can do so by calling at the above named place. BEFORE JUDGE BURGESS.

The Court met persuant to adjournment at ten o'clock, May 9th. The Grand Jurors were called and sworn. Daniel S. Douglas Esq., of Westerly, was appointed Foreman, After a brief charge from Hon. Judge Burgess they retired, accompanied by the Attorney General to their room and after a thorough examination of the facts brought before them, returned with no "presentments," and were discharged from further attendance. The parties in custody charged with the murder of Abram Perry Jr., were discharged from custody, upon an order of this Court.

Edward W. Read vs. Stephen Maine. This is an action to recover damages, for slander alleged to have been committed by the defendant, in charging the plaintiff with setting fire to, and burning a mill located near Milltown in North Stonington county appealing that the Plaintiff had leased the mill of the Defendant, and had located therein quite an amount of machinery for the manufacture of spokes &c. Upon this machinery he had affected an insurance which he afterwards recovered, and the purported slander consists in publicly charging the Plaintiff, with burning the mill and machinery to get his insurance upon his mill. Defence, not guilty of making the alleged charges concerning the Plaintiff. Still pending. William P. Sheffield for the Plaintiff, N. F. Dixon, for the Defendant.

"They have strange chambermaids at Shepherd's Hotel in Cairo, on the Nile," says a lady traveller. "The one who waited on our room, and attended to all the various duties of the calling, even to the making of beds, was a Frenchman, dressed as for a dinner party (white vest and dress coat), and having the air of a refined and educated gentleman. It was really embarrassing to accept his services in such a capacity. One of the ladies, on arriving at the hotel, rang for the chambermaid. He very politely replied, in the best English he could command, 'Madam, I am she.'"

Arcadian Simplicity.

A story of the lovely lives of the aboriginal inhabitants of the Isthmus of Darien comes to us by way of Panama. A delegation of these gentle savages having visited that city on a matter of business, they were instantly interviewed by a citizen—so infectious is a bad habit—and the local papers spread their story before the world. The aboriginal mind appears to have opened under the application of skillful, cross-questioning, like a flower under the sun of Spring, and with a pardonable pride the gentle people boasted of their freedom from the corruptions of civilization. They were asked what they did with their thieves and murderers, but the question caused them to open their dove like eyes in mild astonishment;—they declared that in their happy villages nobody stole from or murdered another; and so to them the punishment of death, forced labor, and penitentiaries were unknown. One missionary has visited these people, but they asked, For what? He could do no good. They believed in God. What more could be desired; Their religion being thus simple and pure, they needed no preaching. The language they speak is described as singularly soft and beautiful. They toil not neither do they spin; for the earth yields spontaneous dinners, and the untutored mind of the dweller upon the banks of the streams requires no other drink than the purest water. It is pleasant to know that this guileless race is within the reach of the curious traveler—but if civilization should chance to encroach upon them, its native simplicity might vanish.

Fashionable Women.

Fashion kills more women than toil and sorrow. Obedience to fashion is a greater transgression of the laws of woman's nature, a greater injury to her physical and mental constitution, than the hardships of poverty and neglect. The slave woman at her task lives and grows old, and sees two or three generations of her mistresses pass away.—The washerwoman, with scarcely a ray of hope to cheer her in her toils, will live to see her fashionable sisters all extinct. The kitchen maid is hearty and strong, when her lady has to be nursed like a sick baby. It is a sad truth that fashion pampered women are almost worthless, for all good ends of life; they have still less power of moral will, and quite as little physical energy. They live to no great ends. They are dolls, formed in the hands of milliners and servants to be fed to order. If they rear children, servants and nurses do all, save to conceive and give them birth. And when reared, what are they? What do they amount to, but weak scions of the old stock? Who ever heard of a fashionable woman's child exhibiting any virtue and power of mind for which it became eminent? Read the biographies of our great and noble men and women. Not one of them had a fashionable mother.

Stealing a Governorship.

The Springfield *Republican*, in an editorial on the developments concerning the vote for governor in Connecticut, says;

"If ever man had reason to pray for deliverance from his friends, it is Governor English of Connecticut. They have elected him Governor by a fraud so obvious that nobody can well doubt it, and so gross that it will be forever notorious,—and yet legal proof of which it is almost, if not quite, impossible to obtain. It he takes the office by virtue of it, he can never escape the responsibility and odium of it. It will be as a mill-stone hung around his neck; his political record will be forever associated with it. Moreover, so clear is the fraud it will compromise his personal character,—it ought to banish him from respectable society forever. He will be known henceforth as the man who took and profited by stolen goods, knowing them to be stolen. He had better never have been governor, of Connecticut than to take and hold the office another year at the price that some of his friends have thus furnished it to him."

A Singular Bargain.

Some three months since, as a well known undertaker was sitting in front of his shop door, waiting for a "dead" order, an acquaintance came along, and, for a joke, asked the undertaker what he would charge to bury him. The man of coffins replied that he would do it very reasonably, and considering that it was a very dull day said he would put his friend under the sod in fine style for thirty dollars, providing he died within twelve weeks. The bargain was concluded on the spot, a third party being called to witness, and Monday the undertaker kept his share of the contract, the man having died after an illness of two weeks, which were his only sick days for twelve years.—*Detroit Free Press.*

In the House of Commons, 9th, Mr. Miall, member from Bradford, moved for and advocated in a speech the disestablishment of the church of England. The motion was overwhelmed, Mr. Gladstone, Disraeli, Roundell Palmer and others opposing it, and upon the division there was an adverse majority of 235. The government announced the signing of the American treaty by the joint high commission.

M. Bouley reports to the Paris Academy of Science that the cattle disease is endemic in all that part of Europe comprised between the Ural and the Carpathian mountains, that it is permanent and constantly perpetuated by contagion. He declares that the flesh of anima's attacked by the disease is perfectly innocuous, and that there is not the slightest inconvenience in the use of such meat as food. He is treating the disease with phenic acid, with much apparent success.

The Opera House Last Evening.

The performances of the Adelphian Comedy and Burlesque Company, at the Opera House last evening, was attended by rather a small but very appreciative audience, and the frequent and hearty applause, gave evidence of the excellence of the playing.

The play of "Kind to a Fault" is a fine comedy, sparkling with wit and fun, and the parts were *all* sustained with great credit.

The Burlesque of "Lurline" was admirably acted and kept the audience in a roar of laughter.

At the close of the performance, Mr. Hall, the manager, came forward and announced that the Company would return here on Wednesday and Thursday, of next week, which was received with unbounded and continued applause.

The people of Newport are not slow in patronizing an entertainment of merit, and had the Adelphain Company been known here, (this being their first appearance) the House would have been crowded, and when a really worthy entertainment comes, it should be patronized and the cold shoulder given to inferior ones.

Persecuted Organ.

The human stomach has been a shamefully persecuted organ. There was a time when for every disaffection of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and literally returned them upon the hands of those who administered them.—They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when false purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is Hostetter's Stomach Bitters, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and anti-bilious properties, as were never heretofore united in any medicine.

It has been discovered, at last, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from the earth twice as vigorous as before.—When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

Hostetter's Bitters meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In this country where the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad

RAPID PROGRESS OF THE WORK.

The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and tracklaying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 113 miles of completed road, and by September next this will be increased to at least 360.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on

23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

LACKAWANNA COAL.
FOR SALE BY
my10 JOSEPH BRADFORD & CO.

MAY 1st.
The Davis Sewing Machine
Has now been before the Newport public ten months. Our sales have averaged
Five Machines per Month.
This we claim to be a success, notwithstanding the unscrupulous and wholesale condemnation of the DAVIS by parties interested in the sale of other Machines, we have steadily made our way never saying aught to injure other Machines, but simply showing what we honestly claim and are prepared to prove to be the superior qualities of the DAVIS.
The DAVIS has been oftener sold by the recommendations of its Patrons than by the efforts of its agents.
The DAVIS recommends itself. On one short street we sold four. We have in this time sold
$2,900 Worth of this Machine.
We have sold on shorter time than other parties, have sold only for money, refusing in every case the hundreds of offers to exchange the DAVIS for other machines.
We are more than satisfied with the patronage the DAVIS has received from an appreciative community.
We hold ourselves ready to supply this the Best SEWING MACHINE yet offered to the public in its various styles, and invite all to come and examine the DAVIS.

The Corn and Oats must be entirely free from dust or other impurities, and put up in good substantial sacks, securely sewed to prevent wasting; and the Hay and straw in bales, free from any wood or other foreign matter.

These supplies must be delivered at the wharves of the respective posts at such times and in such quantities as may be required by the Quartermaster's Department, and payment will be made according to the weights, as certified to by the Post Quartermasters at the places of delivery.

Bidders must state separately the prices at which they will deliver the corn, oats, hay, oat straw, rye straw, and bran, herein called for, at each of the places.

The prices of the corn, oats and bran must include the necessary sacks.

Each bid must be accompanied by a guarantee, signed by two responsible persons, that in case the bid shall be accepted and a contract entered into, they will become sureties in a sum equal to one-fourth of the amount of the contract for the faithful performance of the same.

No bid will be entertained that is not made in accordance with this advertisement, and bidders have the privilege of being present at the opening of the bids.

The Government reserves the right to reject any or all bids regarded as disadvantageous to the Department, or to accept such portion of any bid, not less than one post, that may be deemed of advantage to the public interest.

Bids may be made and will be entertained for delivering the forage and straw here called for at any one or more of the posts.

Proposals must be indorsed, "Proposals for Forage and Straw," and addressed to the undersigned, of whom any other information can be obtained.

BY CABLE.

The London Times on the Treaty.

LONDON, May, 10.

The Times of today, in an editorial on the treaty of Washington, says that neither England nor Canada ever raised the question of exclusive privilege in the navigation of the St. Lawrence. The Times says the terms of settlement of the San Juan boundary are satisfactory to England, and that the only difficulty is as to the plan of adjustment of the Alabama claims. The Times doubts whether the treaty will be immediately ratified by the Senate, but nevertheless, trusts that it will be adopted and become the final solution of all the difficulties between the two countries.

State Rights in Austria.

VIENNA, May, 9.

The Reichsrath has rejected a bill granting to the diets of the various provinces of the Empire the right of initiative in legislation.

THE FALL OF ISSY.

LONDON, May 10.

The Daily News special despatch from Paris says the column in the Place Vendome will fall on Thursday.

There was a sharp engagement yesterday at the bridge of Neuilly, in which the Communists were beaten.

VERSAILLES, May 10.

One hundred and twenty nine cannon were captured in Fort d' Issy, fifty of which have been brought to this city. Large quantities of ammunition and provisions were found in the fort, as was also considerable brandy infused with tobacco. The latter rendered fatal the wounds of those who drank it.

The capture of Fort Issy causes terror among the Parisians.

Battery Montretout continues a furious fire upon the southwestern portion of Paris, to which the federalists make but a feeble reply.

It is claimed by the government that the Communist statement that the garrison escaped from Issy before the capture of the fort, is untrue.

The Versailles forces are slowly but surely approaching the enceinte of Paris.

PARIS, May 10.

The Commune asserts that the garrison of Fort Issy has certainly escaped capture.

General Rossel closes a communication to the Commune, complaining that he had not received proper support, in the following words:

"Two courses were open to our forces, viz: To break through the obstacles which environ Paris, or to retire. The former has been found to be impossible, and therefore we have retired. I have the honor to ask of you a cell in the Masas."

A breach in the walls of Paris is expected to be practicable by the end of this week.

A despatch dated Paris at a late hour last night says there has been no cannonading since 7 o'clock this evening.

The National Guard and the partisans of the Commune are discouraged and it is rumored that there is a serious dissension between General Rossel and the Committee of Safety of the Commune.

The Parisians impose a fine upon those bakers who are exorbitant in their charges for bread.

The official journal of the Commune of today reports all quiet in the vicinity of Fort Issy.

THE PEACE CONFERENCE.

FRANKFORT, May. 10.

It is believed that the Paris fortifications now occupied by Prussian troops will be delivered to the Versailles government even before the payment of the first instalment of the war indemnity.

BERLIN, MAY. 10.

A despatch from Frankfort to the Provincial Correspondent says that the negotiations completed today will result in effecting real and durable peace, and not merely in removing temporary difficulties.

LONDON, May 10.

The following is another version of General Rossel's communication to the commune, resigning the command of the army. He says:

"I cannot endure to hold responsibility where everybody deliberates, where nobody obeys orders, where nothing is organized and where the guns depend for service upon a few volunteers." In continuation, the general complains that reenforcements have not been granted when urgently needed, and that in point of fact the commune is incapable of the discharge of the duties pertaining to it. He therefore, retires from its service, and demands a cell in Mazas prison.

FROM WASHINGTON.

The Senate in Session.

PREPARING FOR THE TREATY.

SPAIN AND SOUTH AMERICA.

WASHINGTON, May 10.

The Senate assembled at twelve o'clock today with a very full attendance of Senators. After appointing a committee to wait upon the President and inform him that the Senate was ready to receive any message he had to communicate, a recess until one o'clock was taken.

The conference for the final settlement of peace between Spain and the allied republics of South America, has not made any progress for the last four weeks.

The delay is supposed to be due to the fact that Mr. Galve, one of the leading men of Peru, who was appointed last year as representative of his country to this Conference, and who went to England some time ago, has not arrived. Mr. Galve is expected here very shortly.

A quorum of Senators was present this morning when the Senate was called to order by Vice President Colfax. Rev. Dr. Newman, Chaplain of the Senate, in prayer invoked the Divine blessing upon the labors of the Commission, and expressed the hope that there might be continued peace between England and America.

The proclamation of the President convening the Senate in extra session was then read, after which Senator Anthony offered a resolution appointing a committee to wait on the President and inform him that the Senate was ready to receive any communication he had to make. Messrs. Anthony and Casserly were appointed. The Senate then took a recess until 1 o'clock.

It is expected the treaty will be once more communicated. The sentiment of the Senate is against considering the treaty in open session. It is not improbable, however, that the full text of the treaty will be made public. A majority of the Senators here seem to be in favor of the treaty, and it is not thought the session will last over two weeks.

FATAL AFFRAY IN MANCHESTER, N. H.

MANCHESTER, N. H. May 10.

Joseph Bell, a canadian Frenchman, well known in this city as a horseman and saloon keeper, met his death suddenly last night by being thrown down some steps upon the sidewalk, in a scuffle with another party whom he attempted to put out of doors.—Bell was about fifty years old, had no children, but a wife in the State Prison. A coroner's inquest is in progress.

NEWPORT DAILY NEWS

Killing Whales by Cannon.

A recent writer in *Land and Water* recounts a late visit to the establishment of Herr Foyen, in the Varangar Fiord, where from a small island, the fishery is prosecuted by means of two small steamers of about 70 tons each. The special apparatus employed consists of a harpoon, inclosing in its head half a pound of gunpowder, and with jointed or hinged barbs containing some percussion powder between them. When the whale is within gun shot, this harpoon, attached to the end of a long cord coiled around the drum, is fired into the animal from a cannon about the size of a four pounder. As the flukes penetrate the side of the whale they are naturally brought together or pressed down toward the shaft, and in so doing ignite the percussion powder, which sets fire to the gunpowder, causing an explosion in the body of the animal that usually produces a mortal wound. The whale, of course, starts off under the stimulus of the pain, and the rope is carried out for a time, being uncoiled from the drum precisely like a fishing rod, the steamer following after so as to prevent any undue strain. If necessary a second discharge takes place, which almost invariably produces death.

WARFIELD'S
Cold Water Soap

What the People Say of it:

The Workingman (a neat Monthly published in Philadelphia, 505 Chestnut street, and "devoted to the best interests of all who labor with hands or brain") has a column in its November issue headed, INTERESTING TO EVERY HOUSEKEEPER, in which it says: "Any woman can try this soap for herself, in her own room. The result will be so like magic that she will be in surprise and delight."

"We have seen a lady take a badly-soiled tidy or antimacassar, put it in suds made in her room with this Cold-Water Soap, and in five minutes cleanse it as white as a curd. We have seen her take hair-ribbons, cambrics, collars, fine worsted work, cambric handkerchiefs, silk and cotton gloves, etc., etc., and wash them in ten minutes or four minutes as clean as when they were new.

"For poor women who have their own washing and housework to do, this Cold-Water Soap will prove the kindest of friends."

The Providence *General Advertiser* (Oct. 22) says of it: "Should a convention of ladies be held to discuss the merits of the great variety of soaps now before the public, we believe it would be the unanimous voice of the body that 'Warfield's Cold-water Self-washing Soap' is entitled to rank A No. 1."

A lady in Providence, writing to Mrs. B. F. Barrett of Philadelphia, after using it three months, says: "This Cold-Water Soap is really one of the greatest inventions of the age. A lady in this city washed a silk Roman scarf with it without injuring the fabric at all; and it heightened the colors."

Thousands of testimonials similar to the foregoing might be obtained, but nothing will be half so convincing as *trying the Soap yourself.*

The University Medicines

are not patent medicines, but the Favorite Prescriptions of the New York Medical University, an incorporated Institution of the State, and are prepared in consonance with the views of a number of distinguished living American practitioners, who believe that the time is come when educated physicians should arise and make a decisive effort to overthrow the health-destroying system of quackery prevailing in every town and city, and substitute scientific, responsible remedials—made in accordance with the principles of Medical Chemistry—in place of the worthless or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physicians that have ever lived, enables us to warrant these Compounds to be the most perfect Curatives for disease ever placed before the people. What may seem almost incredible is the astonishing rapidity with which they cure diseases hitherto considered incurable.

They are combined, with great care, from fine Chemicals, with a true knowledge of their therapeutic properties and physiological effects. Nothing cheap, impure, or poisonous, has been tolerated in their composition.

They are the finest prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practice of the day.

The University Medicines

are to-day sweeping the country from Maine to Mexico, becoming the leading Health Restoratives, and rapidly superseding the old poisons, nostrums, and nauseous drugs, and their sale is becoming enormous. They are now regularly prescribed by over one thousand physicians.

No Forged Certificates Required.

No medicines ever originated have received so many genuine certificates of cures in so brief a space of time. We are daily receiving letters from every part of the country, from patients and physicians, recording the most astounding cures performed by these remedies. Many of these cases had been considered beyond the power of cure. We wish that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many thousands voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES themselves, or in their families, as a moral guarantee that these magnificent remedies are totally unlike the [illegible] nostrums of the day.

Ss.—Personally appeared before me, J. W. Scott, President; L. Hassett, Vice-President; John G. Howard, Treasurer; and George Powell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of Almighty God, that the following are genuine, unmutilated extracts, taken from original letters being daily received at the Institution. WM. H. RIBLET, Notary Public.
Corner Ninth street and sixth avenue, New York.

Surgeon General's Office, Washington, March 10, 1870.
Professors—Please forward my second order for University Medicines. I am pleased to say that I have found them of great service in the treatment of patients under my charge.
——, A. A. Surgeon, U. S. A.

290 Congress St., Portland, Me., May 1, 1870.
Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am establishing ten agencies a day. * * * I shall sell $100,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine. * * *
P. STAPLES, State of Maine Agent.

Mobile, Ala., May 5, 1870.
Gentlemen—Send us a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicines we have ever sold. In fact we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Diseases, etc., with your Cancer-Plant, Lithia, Specific, etc.
I. D. & B. G. GOULD,
Druggists, thirty-five years' standing.

From a distinguished member of Congress.
Washington, May 4, 1870.
My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My limbs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and I at you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not trust the blockheads down here to give physic to my horse. *

Blairsville, Pa., April 18, 1870.
To Professor Scott—Enclosed please find sketch of the case of William Carson, of this place, aged 48—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of 35 years' standing. It had exhausted all the skill of numerous physicians during that time.
This terrible picture was his condition on the 1st of February, 1870.
By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills, he is now entirely cured.
This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost—$15.
Besides, your Five Minute Pain Curer and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.
"I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all his maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.
I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached. SAMUEL E. GREEN.

1,658 Third Avenue, New York, June 23, 1870.
Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Disease of every character rapidly succumbs to their healthful influence. You are evidently destined to overthrow the old practice of medicine.
CHAS. K. DRAPER, M. D.

Dr. Scott, &c.—For years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost immediately, all pain ceased.—The tumor has vanished, and through the providence of God, I am a well woman. In my deep gratitude, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.
New York, Oct. 12, 1869. Miss E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.
GEORGE D. REYNOLDS.
Metallic Cartridge Company, Bridgeport, Conn. March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntingdon, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I am induced to order some.
Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the heart, and prescribed medicine without benefit. I also ascertained that I was affected with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after using four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well. WASHINGTON TYSON.
Pottstown, Pa., Jan. 5, 1870.

Derby, Conn., Jan. 21, 1870.
Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most Doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 17, 1870.
Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.
Professors—Some of my friends and myself have tried the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. Buckler Jones:
Baltimore, Md., Oct. 17, 1869.
I have a lady under my care with Cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit and decided improvement in every respect.
J. BUCKLER JONES, M. D.

Ashland, Pa., 1870.
Dear Sirs—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.
"Io Triumphe" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. TILLSON.

14 Temple St., Hartford, Jan. 10, 1870.
Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to my system. R. KINZEL.

Vernon, Conn., May 4, 1870.
Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.
E. L. RISLEY.

Fairport, Iowa, March 5, 1870.
Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been affected with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have cured my head out as clear as a bell. I gave the balance away, saying: "Gentlemen, be convinced—I am." DR. McKENNA.

Yarmouth, Me., May 9, 1870.
Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.
Mrs. SARAH A. WITTON.

38 Market St., Pittsburgh, Pa., July 1, 1870.
Professor Scott—Although dispensing the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders as curers of disease, and give general satisfaction. All the remedies are proving successful, and my practice is rapidly increasing.
J. M. YOUNG, M. D.

Office Blanchard Hame Co.,
Palmer, Mass., May 4, 1870.
Professors—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.
A. B. CHAPMAN, Secretary.

Philadelphia, June 23, 1870.
Professors—We have just been handed a bottle containing a piece of tapeworm, 13 feet 8 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.
We also have just cured a lady of gravel of many years' standing, by using Lithia and Alkaline Resolvent. JOS. C. HARROLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.
W. Waterville, Me. W. H. ROBS, M. D.

And thousands upon thousands of others. Can any other medicines show a similar record?

JURUBEBA.

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER OR THEIR CONCOMITANTS.

DR. WELLS having become aware of the extraordinary medicinal properties of the South American Plant, called

JURUBEBA,

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even exceed the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful Plant. He has spent much time experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr. WELLS' EXTRACT of JURUBEBA,

and he confidently recommends it to every family as a household remedy which should be freely taken as a BLOOD PURIFIER in all derangements of the system and to animate and fortify all weak and Lymphatic temperaments.
